Class room portion will be indoors and starts at 8:00 AM each day.

What is an AI Burkhart Training Clinic you ask?

This will be an intermediate to advance level seminar which will include instruction on basic obedience, trained retrieve, introduction to electronic training devices, steadiness on game, and also tracking wounded game. There will be advanced work on backing for hunt test and NAVHDA'S Invitational. Handlers are instructed to bring their dogs so they can be used as classroom examples, particularly if they have a problem that needs to be addressed. You'll go home with a better idea of what is expected after actually doing it, not just seeing it.

The cost is \$100 for the two-day event. This will include coffee and donuts in the AM and lunch for both days. Space is limited so please don't wait to enter.
